Oats, Rolled Barley, Alfalfa
Seed, Grain Bags, etc.

TEMPE

TEMPE

GOES IN FRISCO.

President Matthews, the Arizona di-
rector of the National Educational as-
sociation, left Thursday evening for
San Francisco to attend the annual
meeting of the association. Arizona
quarters of the association have been
established at the Palace hotel and
there will be kept on file copies of all
Arizona papers and literature from the
different towns of the territory. Pres-
ident Matthews took with him a large
quantity of Tempe literature for dis-
tribution and more will be sent by ex-
press from time to time as the demand
requires. It is thought that much good
advertising for Tempe may be secured
in that manner at very little expense.

SPECIALS TODAY.

Drop in at Hyder Bros. today and
take advantage of their Saturday spe-
cial. You will see a chance to save
money.

RIVER LOWER.

The river is now low enough to per-
mit the larger automobiles crossing at
the regular ford here without special
difficulty. The smaller ones, however,
occasionally get in too deep water and
are swamped. The crossing is a good
one, however, on the whole, and as soon
as the Arizona canal takes out its
supply of water the river will be down low
here.

ADVANCE DETAIL.

Sargt. Jungerman of company C left
yesterday morning for Prescott. Ac-
companying him were Privates Miller,
Cruz, and Turner, who form the ad-
vance detail from Tempe. The rest of
the company will leave Monday morn-
ing.

TROUGHT O. K.

A letter from C. M. Mullen dated at
Strawberry, states that the Mullen party
reached that point after an unevent-
ful journey. They had a pleasant trip
and made good time. The C. M. Mullen
family will spend the summer at
Strawberry while the rest of the party
will go on to Mormon Lake.

OVEN DAMAGED.

J. Hearn, proprietor of the Tempe
Bakery, has been out of business since
the heavy storm of a week ago. The
rain damaged his oven to an extent that
made baking impossible. Repairs will

with you on your vaca-
tion. We are Tempe
Agents.
Harmer's Drug Store.

I. O. O. F. FEED.

The Odd Fellows will install officers
this evening and the installation cere-
mony will be followed by light refresh-
ments. All members of the Tempe
lodge are requested to be present and
all visiting members of the order are
cordially invited to attend.

ON HIS VACATION.

G. H. Bransford of the Tempe Light
and Power company is now taking his
annual vacation. He and Mrs. Brans-
ford left yesterday noon for Wilcox,
where they will spend a week or ten
days with Rev. and Mrs. S. M. Cheek,
formerly of this place.

THE CHARGE DISMISSED.

Much of the time of Justice Carr's
court Thursday afternoon was devoted
to a stove stealing case. Mrs. Osterloh
had filed a complaint against Al Johns,
charging him with the theft of a stove
from her rooms, which Mr. Johns and
his family had had rented. The evidence
did not indicate to the justice that
there was any intent on the part of Mr.
Johns to steal the stove, and accord-
ingly the charge was dismissed.

A SUMMER SHOWER.

Tempe caught a typical summer
shower on Thursday night. There was
considerable thunder and lightning and
enough rain fell to drive outdoor sleep-
ers inside. The weather for the past
few days has been rather sultry and in-
dications of more rain before it finally
clears up.

MESA

MANGER-FED VS. PASTURE.

Well known Mesa farmers were yester-
day making inquiries as to what had
become of the gentleman who was to
install an alfalfa mill at Mesa. The
mill proposed was to consist of machin-
ery which would cut the raw alfalfa in
to minute particles, after which a cer-
tain amount of molasses would be ad-
ded, greatly reducing the bulk of the
product provided one desired to send
it to an outside market. The product
of such a mill is said to be much bet-

Everything in Real Estate.
Mesa, Arizona

ter for stock than alfalfa pasture, and
saves one's pasture from the waste and
destruction caused by a number of ani-
mals tramping over the grass land.
While such a mill would be a great
thing for the valley, one of the Mesa
farmers who has had long experience
in handling milk cows, declares that
he can get just as good results at prac-
tically the same cost by keeping his
cows up, cutting and feeding the hay
to them, supplemented with a daily por-
tion of bran. He thinks that cows fed
in this manner will produce fully a
third more milk, and thus add greatly
to the size of one's monthly check from
the creamery. All who have discussed
the problem declare in favor of cutting
the hay and feeding, in preference to
pasturing.

HAPPIEST GIRL IN LINCOLN.

A Lincoln, Neb., girl writes, "I had
been ailing for some time with chronic
constipation and stomach trouble. I
began taking Chamberlain's Stomach
and Liver Tablets and in three days
I was able to be up and got better
right along. I am the proudest girl in
Lincoln to find such a good medi-
cine." For sale by all dealers.

DOWN FROM GRANITE REEF.

Edwin B. Hill, in charge of the gates
at the Granite Reef dam, accompanied
by his father, was in town yesterday.
Mr. Hill says that the recent rain made
very little increase of water in the
river at the reef. He had been expect-
ing to have more water come down the
Verde than could be well handled in
the canals. At one time he had a re-
port from Jerome that one and one-
half foot of water was on the way down
the Verde, but when the dam was
reached there was a raise of only an
inch or two. The breaks in the Ariz-
ona dam were caused by the drain-
age water running into the over-flow-
ing canal that was already full to the
brim. The breaks are being rapidly
repaired and the canal will soon be in
condition to give the farmers the water
as needed. Only a few hundred inches
are now in the canal, turned in for
stock watering, the farm lands not yet
needing irrigation. While in Mesa Mr.
Hill had his name placed on the great
register, so that he will be able to vote,
if there should ever be another election
held in the county.

Sprains require careful treatment.
Keep quiet and apply Chamberlain's
Liniment freely. It will remove the
soreness and quickly restore the parts
to a healthy condition. For sale by
all dealers.

A VERY SICK LADY.

Mrs. E. M. Spragg became very ill
Thursday night, necessitating the ser-
vices of a physician. Liver and blad-
der trouble of a serious nature was
found to be causing the trouble. Mrs.
Spragg is 76 years of age, and her heart
action is faulty, which makes the pres-
ent illness a matter of much anxiety to
her relatives and friends. Miss Aman-
da Nelson has been engaged to nurse
the patient.

Never leave home on a journey
without a bottle of Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
It is almost certain to be needed and
cannot be obtained when on board the
cars or steamships. For sale by all
dealers.

THE BUILDING OF A TOWN.

The Mesa Improvement Co. plan the
building of a city beautiful at Chandler,
six miles south of Mesa. A school house,
depot and hotel and store are to be the
first structures on the town site. The
plans for these contemplate modern
styles of architecture, having in view
the beautiful as well as useful. The
land sales so far have been principally
tracts of 40 acres or more, and on these
a number of modern bungalows will
probably be erected. At least that is
the style agreed upon by the earlier
purchasers.

The streets of the new town are to be
lined with trees and there will be a
stream of pure water running through
the town; several streams in fact, and
from these the lawns and gardens will
be irrigated. Cement sidewalks will
be the rule, following the plan of Cal-
ifornia promoters in that respect. Of
course, it takes time for all these im-
provements, but the question of shrub-
bery in this country is easily hand-
led. Give plenty of water, shade and
ornamental trees thrive with a vigor
unknown to northern climes and the
growth is almost tropical.

The grading for the new railroad to
Chandler is now so far advanced that
track-laying will begin next week, and
it is expected that the first train will
run into the new town inside of three
weeks. The formal opening of Chandler
will be an occasion for a big excursion,
it is understood, in which all the world
will be invited to join.

Right in your busiest season, when
you have the least time to spare you
are most likely to take diarrhoea and
lose several days' time, unless you
have Chamberlain's Colic, Cholera
and Diarrhoea Remedy at hand and
take a dose on the first appearance
of the disease. For sale by all dealers.

HUMANE SOCIETY ACTIVE.

Under the leadership of President
Geo. B. Fitzgerald, the Mesa humane
society has been quite active of late
and it is due to the work of this or-
ganization that several maimed, cripp-
led and overworked skeletons have
been taken out of harness and either
placed on pasture for rest, or humanely
killed. People who abuse animals don't
get much sympathy in Mesa.

For summer diarrhoea in children
always give Chamberlain's Colic, Chol-
era and Diarrhoea Remedy and castor
oil, and a speedy cure is certain. For
sale by all dealers.

Sprains require careful treatment.

SCARCITY OF NEWS.

All the local reporters are complain-
ing of a scarcity of news "as is news."
The month for wedding is past; yeg-
men, sandbaggers and crooks of all
kinds give Mesa the go-by, and all who
can be induced to work are busy at
some useful avocation. The center of
excitement is of course along the rail-
road track where the cantaloupes are
being loaded into cars. From early
morning until late at night the neigh-
borhood of the loading sheds are
crowded with teams, the wagons con-

You need envy
none their happy
home--Have one
of your own.

PERHAPS you've often envied the home man
his many comforts in life—envied him his
own home to go to after a hard day's work.
You've often thought "if I were only he." No
need to envy any man his home for you can have
your home just as well as he.

We have the things for your home ready for
you and we've the way that will make it yours—
just as you want it. Are you going to remain
longer without it? We are ready now, aren't you?
